B Com Eligibility

Students must meet specific eligibility criteria for a Bachelor of Commerce program. These standards differ from institution to institution but, in a typical instance, include academic credentials and, in some cases, entry examinations.

- Those having the [10+2] (pass curriculum of Higher Secondary in the college) of an authorized board can apply to the B Com program. Most colleges have a minimum aggregate score (50-60% in Class 12 assessment). Students in the commerce stream are commonly favored. However, students from science or arts streams also accept applications for some colleges.

- Some universities, too, take the entrance exams to test applicants' abilities. These tests assess students' understanding of mathematics, economics, and business subjects.

B Com Subjects

The B Com curriculum offers students a holistic view of the principles and practices governing commerce and business. Varying from financial accounting to corporate [law](#), the B Com topics encompass various teaching/learning domains to prepare students for the professional world.

Core Subjects in B Com

In B Com programs, core subjects give the essential information and abilities required to perform in business and finance. Key subjects include financial accounting, business statistics, and economics. These topics teach how to lay a firm commercial base systematically and develop analytical thinking, problem-solving, and decision-making skills. If theoretical work is not always enough, students will perform a wide range of practical work, case studies, and projects to strengthen their understanding of the theme.

- **Financial Accounting:** Teaches students the fundamentals of accounting principles and financial reporting.
- **Business Economics:** Focuses on microeconomic and macroeconomic principles relevant to businesses.
- **Principles of Management:** Surveys the basic principles of management, such as planning, organization, and decision-making.
